## SUMMARY

I'm a Frontend Developer with more than 1.5 years of experience, including internships and more than 7 months in a full-time role. Skilled in React.js, JavaScript, HTML, and CSS, with a focus on building responsive, user-friendly web apps. Strong understanding of modern frontend practices, component-based architecture, and API integration.

## WORK EXPERIENCE

**Software Developer, Vserv Infosystems Private Limited** **Nov 2024 - Present**

- Developed responsive UIs for internal platforms using React.js, Tailwind CSS, and Material UI.
- Built dashboards and multi-role interfaces for social media, vendor management, and travel desk systems.
- Integrated RESTful APIs and real-time updates for seamless user experience.
- Implemented JWT/OTP-based authentication and ensured secure data handling.
- Optimized performance, maintained code quality, and collaborated with cross-functional teams.

**Web Developer Intern, Linkzie Technologies Pvt Ltd** **March 2024 - Sep 2024**

- Worked as a full-time web development intern at Linkzie Technologies, where I developed, managed, and regularly updated their website.
- Improved site functionality and user experience by collaborating on design tweaks and troubleshooting issues as they arose.

**Frontend Developer Intern, Digital Folks Cooperation** **Nov 2022 - May 2023**

- Experience and extensive knowledge in Web based application using HTML, CSS, Bootstrap, JavaScript, PHP.
- Also, I Built and maintained WordPress websites for clients using custom themes and plugins.
- Developed websites for various industries, including yoga retreats, hotels, and taxi booking services.

NodeJs

GIT / GitHub

## EDUCATION

**Integral University, Lucknow** **April 2019 - May 2023**  
Bachelor of Technology - ECE **B.tech**

**Sri Chaitanya Junior College, Hyderabad** **April 2017 - May 2019**  
Telangana State Board of Intermediate Education **Intermediate**

**S.R.T School, Muzaffarpur** **April 2015 - May 2017**  
Central Board of Secondary Education **Matriculation**

## PROJECTS

---

### Vendor Management Systems

A responsive vendor management system with secure user authentication and role-based access control. Built interactive dashboards for vendor onboarding, approvals, and tracking. Enabled multi-role functionality for vendors and admins. Designed an admin panel for managing vendors, contracts, payments, and compliance. Added vendor search, filtering, and real-time status updates. Optimized API and database performance, ensured secure data handling, and deployed the system on a VPS for scalability.

**Front End** – React JS, Tailwind CSS, Material UI

**Backend** – Node JS + Express JS

**Database** – MongoDB

**Host** – VPS (Virtual Private Server)

**Industry** – Vendor Management System

### Vserv Internal Social Media Platform

Built an internal social media platform to enhance employee engagement and collaboration. Designed a modern UI with secure JWT-based authentication and role-based access. Enabled real-time posting, commenting, liking, and sharing. Integrated media uploads for images, videos, and documents. Developed an admin panel to manage users and content. Optimized APIs and database queries for high performance and scalability.

**Front End** – React JS

**Backend** – Node JS + Express JS

**Database** – MongoDB

**Host** – VPS (Virtual Private Server)

**Industry** – Internal Communication & Social Networking

### Vserv Travel Desk

A travel desk system with role-based access for employees, managers, admins, and vendors. Enabled travel requests, approvals, and vendor bookings. Built dashboards for tracking, integrated secure authentication, real-time updates, and email notifications. Optimized APIs and database for performance and scalability.

**Front End** – React JS

**Backend** – Node JS + Express JS

**Database** – MongoDB

**Host** – VPS (Virtual Private Server)

**Industry** – Corporate Travel Management

### Vserv USA INC

A responsive corporate site using React and PHP with dynamic content, contact forms, and SEO optimization. Ensured cross-device compatibility, secure data handling, and fast load times for an optimal user experience.

**Front End** – React JS

**Backend** – PHP

**Host** – Hostinger

**Industry** – Corporate Website / Software Services

### Vserv Jobs

A fully functional, responsive job portal allowing recruiters and job seekers to post, apply for, and track jobs in real-time. Included OTP-based authentication, multi-role access, and administrative control.

The following technologies used in this project:

**Front End** - HTML, CSS, JavaScript

**Backend** - PHP

**Database** - MySQL

**Host** - XAMPP (Local) & Hostinger

**Industry** - Recruitment
